EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

Claims 17-24 have been cancelled as being drawn to non-elected species.

Claims 7-9 have been rejoined as being dependent from an allowable generic claim.

Claim 1, line 14, "the the" has been replaced with – the – to remove a duplicate word.

Election/Restrictions

2. Claims 1, 3-6, 10-12 and 14-16 are allowable. The restriction requirement between species and inventions, as set forth in the Office action mailed on February 3, 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 7-9, directed to alternate species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

However, claims 17-24, directed to alternate species remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The following is an examiner's statement of reasons for allowance: The prior art, taken as a whole, does not teach or render obvious the claimed combination comprising a transporting apparatus having a first motor wherein the first motor drives the first and second driving axles to rotate; a second motor, wherein the second motor drives and rotates a supporting shaft of the supporting part which is interlocked with the first and second driving axles; and a third motor, wherein the supporting shaft and the second motor are driven to move up and down by the third motor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
